

KWESI DUKES

Business Analyst | Enterprise Systems | Microsoft 365 | Data & Governance

Ashfield, WA 6054 | kd@kwesidukes.au | 0448 688 958 | linkedin.com/in/kwesidukes

PROFESSIONAL PROFILE

Business Analyst with experience translating stakeholder and business requirements into structured technology solutions across higher education and enterprise consulting environments. Skilled in requirements elicitation, business process analysis, functional documentation, and User Acceptance Testing, with a consistent record of supporting digital transformation, governance uplift, and audit remediation programs. Currently completing a Master of Information Systems Management (Business Intelligence specialization, 4.0 GPA). Brings a stakeholder-first, evidence-based approach to business analysis, well suited to a multi-portfolio IT environment.

CAREER HIGHLIGHTS

- Served as the primary business analysis resource supporting an enterprise Microsoft 365 tenant transformation, translating stakeholder and security requirements into identity architecture, access controls, and governance frameworks.
- Contributed to remediation efforts addressing more than 95 audit and security findings while coordinating stakeholder validation and supporting governance objectives.
- Delivered business systems and testing analysis within a regulated higher education environment, engaging faculty, staff, and student stakeholders.
- Microsoft Certified Power BI Data Analyst (PL-300) and ISC2 Certified in Cybersecurity (CC), pairing data analytics capability with governance and compliance expertise.
- Completing a Master of Information Systems Management, Business Intelligence specialization, 4.0 GPA.

CORE COMPETENCIES

Business Analysis: Requirements Elicitation & Documentation • Business Process Analysis & Improvement • Stakeholder Engagement • Functional & Technical Specifications • UAT Coordination • Requirements Traceability • Change Management

Data & Analytics: Power BI • SQL • Excel • Tableau • SAS • SPSS • Data Visualization & Reporting

PROFESSIONAL EXPERIENCE

Director of IT Solutions (Consulting)

Business Analysis & Digital Transformation

The Rizen Group | Remote, Contract | 2024 – Present

- Facilitated requirements elicitation and stakeholder engagement for an enterprise Microsoft 365 tenant transformation for a FinTech client, translating business and security requirements into identity architecture, provisioning workflows, and access-control models.
- Authored functional documentation and standard operating procedures to support UAT, change communication, and knowledge transfer across distributed business units.
- Contributed to remediation efforts addressing more than 95 audit and security findings, coordinating with stakeholders to validate requirements, prioritize fixes, and confirm compliance sign-off.
- Established governance frameworks across 5 core enterprise platforms – SharePoint, Teams, Exchange Online, OneDrive, and Entra ID – improving structured reporting and cross-functional coordination between business and technical teams.
- Partnered with business stakeholders to advise on digital transformation, business process improvement, and change management strategy.

Business Systems & Data Analyst (Testing Operations)

Richmond Community College | Sep 2021 – Apr 2026

- Analyzed operational and testing data across enterprise systems to improve reporting accuracy and support compliance-focused decision-making in a regulated higher education environment.
- Partnered with faculty, staff, and administration to elicit requirements, document processes, and support enterprise testing and student information systems.
- Enforced security protocols and access controls across digital platforms, contributing to institutional compliance and audit readiness.
- Coordinated secure testing operations across multiple enterprise platforms in alignment with institutional and vendor security standards.
